

Track and Structures

Volume 63

January-December 1967

General Article Index

- * Illustrated article
- (A) What's the answer?
- (E) Editorial
- (L) Letter to the editor

American Concrete Crosstie Corp.:
Concrete ties for long Frisco branch, *May 15
Seaboard mixes concrete ties with wood, *July 15
The built-up wood tie joins concrete ties in main-line test on L&N, *Sept 22

Apalachicola Northern:
Mechanization of a short line, *Mar 36

Armco Steel Corp.:
Highway overhead replaced by big pipe on N&S, *July 19
Non-slip catwalks for piggyback workers, *Apr 19

Atchison, Topeka & Santa Fe:
Automated turnout surfacing on Santa Fe, *Jan 25
Low-Cost shoulder restoration on the Santa Fe, *July 28
Santa Fe uses off-track rig for driving shoulder poles, *Sept 24

Ballast and Ballasting:
Ballast impactor preserves line, surface, *Oct 26
Clean or use new ballast? (A), Aug 31

Belt Railway of Chicago:
Special bridge design solves clearance problem, *Jan 30

Branch Lines:
Maintenance, *Oct 40

Bridges, Concrete:
Cites examples of long prestressed-concrete spans (L), Dec 40
Frisco goes to prestressed-concrete trestles, *Nov 20
'Longest' prestressed-concrete girders on SP Cut-off, *Aug 20
'Longest' prestressed concrete trestle for L&N, *Apr 24
MoPac keeps improving its design for concrete trestles, *July 24
Pier underpinned with 'Groutainers', *Feb 22

Bridges, General:
Can anyone top this bridge-gang work record (L), Jan 50
Contracting bridge work, Oct 60
Determining size of drainage openings (A), Nov 37
Essential records (A), Aug 30
Research—and progress in, *Dec 26
Where to use shotcreting (A), July 34

Bridges, Steel:
It's fast work when Texas Mexican installs 65-ft girder span, *Sept 26
New bridge meets challenge of high water (L), *Dec 39
PRR adopts steel-trestle design as standard, *Dec 22
Special design solves clearance problem, *Jan 30

Bridges, Timber:
Can bridge timbers be turned? (A), June 32
Concrete for timber repairs (A), Oct 89
Highway overhead replaced by big pipe, *July 19
Surfacing timber trestles with shims (A), May 42

Buildings and Building Work:
Common plumbing problems (A), Aug 35
Contract building work, Oct 60
Correcting settlement of foundations (A), Mar 62
Essential records (A), Aug 30
Retaining wall construction (A), Oct 80
Select roofing materials (A), Mar 52
These buildings have portability, will travel, *Sept 17
Use of insulation (A), Aug 30
Where to use shotcreting (A), July 34

Canadian National:
Used in CNR tunnel: New type spray lining, *May 22

Chicago & Eastern Illinois:
New yard cleaner loads a car per hour, *Feb 26

Chicago, South Shore & South Bend:
Two-component system protects catenary poles, *June 26

Clearances:
Special bridge design solves problem, *Jan 30

Computers:
The need for knowledge about EDP (E), Feb 8

Concrete and Concrete Work:
Cites examples of long prestressed-concrete spans (L), Dec 40

Frisco goes to prestressed-concrete trestles, *Nov 20

'Longest' prestressed-concrete girders on SP Cut-off, *Aug 20

'Longest' prestressed-concrete trestle for L&N, *Apr 24

MoPac keeps improving its design for concrete trestles, *July 24

Pier underpinned with 'Groutainers', *Feb 22

Protection for newly placed (A), Dec 34

Reusing plywood forms (A), Feb 43

Conventions and Meetings:
AREA packs full convention in 1½ days, *Mar 30

Engineers get bigger part in RR planning, *Apr 15

Management expectations and supervisory performance, *Nov 27

Railroading's future—and the M/W supervisor, *Nov 22

Research—and progress in railroad bridges, *Dec 26

The crosstie shortage—What can be done about it, *Jan 15

Weed and brush control conference, *Feb 15

What, when, where during Roadmasters' and B&B meetings, *Oct 24

Cost Control:
Greater control for M/W departments (E), May 9

How to achieve economical maintenance, *Nov 17

Some changes are in the offing (E), Nov 8

Cranes:
Getting the most out of them, *May 21

Crossings:
A better way to highway crossings (E), Oct 8

Help stop accidents (E), Dec 8

How to lay welded rail through (L), Jan 50

New machine expedites crossing rehabilitation, *Dec 19

Culverts:
Keeping culverts clean (A), Aug 37

Embankments:
How to halt slides (A), Dec 35

Low-cost restoration on Santa Fe, *July 28

Santa Fe uses off-track rig for driving poles, *Sept 24

Employees:

Can we afford to waste their time? (E), Mar 9
Personnel—Acquiring, selection and training, *Oct 33

Should rules sometimes be bent? (E), Sept 8
Who carries a standard watch? (A), Mar 61

Who should know the Book of Rules? (E), Aug 8

Erie-Lackawanna:
Machine distributes crossties from bundles, *April 20

Fairmont Railway Motors, Inc.:
Hy-rail bus makes debut in passenger service, *Dec 25

Frogs:
Hold-downs on spring frogs (A), Sept 39

Good Roads Machinery Corp.:
Track sweeper is a king-size vacuum cleaner, *Sept 30

Grading and Grading Equipment:
Grader attachments save time, cut costs, *April 22

Henry Manufacturing Co.:
Santa Fe uses off-track rig for driving shoulder poles, *Sept 24

Illinois Central:
Rail heater adds hours to gang time, *June 24

Inspections:
Can roadmaster help on bridge inspection? (A), Nov 33

Welded-rail inspection frequency (A), July 40

Japanese National Railways:
Air bags inflated to unload snow train, *Aug 28

Labor:
Can we afford to waste their time? (E), Mar 9

Personnel—Acquiring, selection and training, *Oct 33

Louisville & Nashville:
Built-up wood tie joins concrete ties in main-line test, *Sept 22

'Longest' prestressed concrete trestle, *April 24

Maintenance of Way:
Essential B&B records (A), Aug 30

Festening corrosion from electrification (A), July 46

Getting the most from on/off-track crane, *May 21

How to achieve economical maintenance, *Nov 17

How to halt slides of fills (A), Dec 35

Keeping culverts clean (A), Aug 37

Maintaining CTC passing tracks (A), Mar 57

M/W operations seen going higher in 1967, *Jan 15

Save travel time for more production time, Dec 39

This problem needs concerted action (E), Oct 8

Track sweeper is king-size vacuum cleaner, *Sept 30

What hand tools are still required? (A), Sept 40

Who carries standard watch? (A), Mar 61

Yard and branch-line maintenance, *Oct 40

Yard cleaner loads a car per hour, *Feb 26

Mechanization:
Getting the most from on/off-rail cranes, *May 21

How much more progress? (E), Mar 9

Key to greater output from machines (E), Apr 8

- Of a short line, *Mar 36
The race to keep up with technology (E), Dec 8
- Miscellaneous:
AREA members should speak up (E), Feb 8
Helping editors get their stories (E), Jan 9
Some towns ask for too much (E), June 8
The engineer's right to individuality (E) Aug 8
The need for doing a good clean-up job (E) July 9
Weathering steel for catenary poles, *Feb 21
Will a speech like this ever be made? (E) Nov 8
- Missouri Pacific:
Keeps improving its design for concrete trestles, *July 24
Non-slip catwalks for piggyback workers, *Apr 19
- Multi-Grader, Inc.:
Low-cost shoulder restoration on Santa Fe, *July 28
- New York Central:
Ballast impactor preserves line, surface, *Oct 26
Fighting snow at Buffalo, *Aug 15
Story behind high-speed test run, *May 18
Tailors rail program to its needs, *Mar 32
- Norfolk & Western:
Mapping from the air on the N&W, *Aug 23
New machine expedites crossing rehabilitation, *Dec 19
- Northern Pacific:
Pier underpinned with "Groutainers", *Feb 22
- Northfield & Southern:
Highway overhead replaced by big pipe, *July 19
- Pennsylvania:
Adopts steel-trestle design as standard, *Dec 22
Big compressor paces rail spiking, *Mar 29
- Personnel:
Acquiring, selection and training, *Oct 33
- Philadelphia Suburban Transportation Co.:
Hy-Rail bus makes debut in passenger service, *Dec 25
- Piles:
Depth of driving over rock (A), April 40
Drivers for all types (A), June 39
How to drive (A), May 45
Pile-driving reports (A), Sept 32
- Plaster American Corp.:
Automated turnout surfacing on Santa Fe, *Jan 25
- Protective Coatings:
Two-component system on catenary poles, *June 26
- Rail:
Bonds and transposing rail (A), Mar 66
Gap at track scales (A), Jan 38
Grinding for a short line, *Oct 21
Heater adds hours to gang time, *June 24
Occurrence of shelly rails (A), June 31
Using scrap rail in yard tracks (A), Feb 34
Welded-rail inspection frequency (A), July 40
- Rail, Laying:
Big compressor paces rail spiking on PRR, *Mar 29
NYC tailors program to its needs, *Mar 32
Transposing welded rail on curves (A), May 43
Work force for transposing rails (A), Feb 32
- Rail, Welded:
Installation and maintenance, *Oct 30
Replacing bolts in welded-rail joints (A), Nov 45
Temporary joints in welded rail (A), Nov 36
- Railroad crossings:
Prolonging life of (A), Dec 30
- Railway Maintenance Corp.:
New machine expedites crossing rehabilitation, *Dec 19
Team of on/off-track machines proves value, *June 20
- Reading:
Hydraulics for M/W men, *May 26
Weathering Steel for Catenary Poles, *Feb 21
- Roofs and Roofing:
Select materials (A), Mar 52
Royce Kershaw Co., Inc.:
New yard cleaner loads a car per hour on C&E, *Feb 26
- Safety and Fire Protection:
Fire extinguishers on work equipment (A), Nov 48
When handling gas cylinders (A), July 41
- St. Louis-San Francisco:
Concrete ties for long branch, *May 15
Goes to prestressed-concrete trestles, *Nov 20
- Scales:
Tightening scale check rods (A), Feb 37
- Schield Bantam Div.:
Getting the most from your on/off-rail crane, *May 21
- Schramm Inc.:
Big compressor paces rail spiking on the PRR, *Mar 29
- Seaboard Coast Line:
Mixes concrete ties with wood, *July 15
- Short Lines:
How to achieve economical maintenance, *Nov 17
Mechanization of, *Mar 36
- Snow and Snow Fighting:
Air bags inflated to unload snow train, *Aug 28
Fighting snow at Buffalo, *Aug 15
RRs dig out from Chicago's heaviest snow, *Mar 25
- Southern Pacific:
Bridges on cut-off include 'longest' prestressed girders, *Aug 20
Team of on/off-track machines proves its value, *June 21
Track Building: How doing it on long cut-off line, *July 20
- Southern Wood Preserving Co.:
The built-up wood tie—joins concrete ties in main-line test on L&N, *Sept 22
- Spene Railroad Ballast Cleaning Co., Inc.:
Rail grinding for a short line, *Oct 21
- Surfacing:
Automated turnout surfacing on Santa Fe, *Jan 25
Ballast impactor preserves line, surface, *Oct 26
Surfacing timber trestles with shims (A), May 42
- Switches:
Controlling switch-tie renewals (A), April 36
Evaluating use of in yards (A), Oct 82
- Tamper, Inc.:
New plant in South dedicated, *May 24
- Texas Mexican:
It's fast work when TM installs 65-ft girder span, *Sept 26
- Ties, Concrete:
For long Frisco branch, *May 15
Seaboard mixes concrete ties with wood, *July 15
The built-up wood tie joins concrete ties in main-line test on L&N, *Sept 22
- Ties, General:
Does size affect maintenance? (A), May 46
Machine distributes from bundles, *April 20
Seaboard mixes concrete ties with wood, *July 15
- The built-up wood tie joins concrete ties in main-line test on L&N, *Sept 22
The plastic tie: A progress report (E), Sept 8
- Track:
A fresh look at the track structure (E), June 8
Are we overlooking track gauge? (E), Jan 9
Current and future requirements, *Oct 56
How SP is building its cut-off line, *July 20
How to tamp through crossovers (A), April 41
Machine distributes cross-ties from bundles, *Apr 20
Maintenance to accommodate fast, high and heavy loads, *Oct 36
Maintaining CTC passing tracks (A), Mar 57
Making tie renewals in yards (A), Apr 34
New yard cleaner loads a car per hour, *Feb 26
Quality—U.S. vs. foreign lines (E), July 9
Raising in the spring (A), May 38
Restoring surfaced track to service (A), Jan 33
Selecting line side (A), Jan. 40
Team of on/off-track machines proves its value on SP, *June 21
Story behind NYC's High-speed test run, *May 18
What are they learning about track in Washington, *June 15
- Tunnels:
New-type spray lining used by CNR, *May 22
Where to use shotcreting (A), July 34
- Turnouts:
Automated surfacing on Santa Fe, *Jan 25
Turzillo Contracting Co., Lee:
Pier underpinned with inflatable "Groutainers," *Feb 22
- Weed Control:
Equipment for (A), June 33
Vegetation control, *Oct 58
Weed and brush control, *Feb 15
- Welded Rail:
How to lay through highway crossing (L), Jan 50
Inspection frequency (A), July 40
Laying on sharp curves (A), Feb 41
Renewal of trestle ties, *Oct 62
Replacing bolts in joints (A), Nov 45
Temporary joints (A), Nov 36
Transposing on curves (A), May 43
Welding relay rail without cropping (A), Oct 68
- Welding and Welding Equipment:
Building up rivets by welding (A), Jan 41
- Wilco Chemical Co.:
Two-component system protects catenary poles, *June 26
- Wooley Machine Co.:
Rail heater adds hours to gang time, *June 24
- Work Equipment:
For short lines (A), Aug 32
Getting the most from on/off track cranes, *May 21
How much more progress? (E), Mar 9
Key to greater output from machines (E), Apr 8
New machinery and recent developments, *Oct 54
Protecting on-track equipment (A), Sept 43
- Yards and Terminals:
Changing hump-retarder yard grades (A), Dec 31
Cleaner loads a car per hour on C&E, *Feb 26
Making tie renewals in yards (A), April 34
Non-slip catwalks for piggyback workers, *Apr 19
What's happening in retarder yards? (E), May 9
Yard and branch-line maintenance, *Oct 40

New Products Index

*Illustrated article

- Abex Corp.:
New logic scheme for yard-routing system, Nov 32
- Aldon Co., The:
Wrecking skids for setting out 'bad-order' cars, *Feb 45
- Allied Chemical Corp., Nitrogen Div.:
Weed spray trucks, *Mar 45
- American Concrete Cross-tie Corp.:
Concrete ties for long Frisco branch, *May 15
Seaboard mixes concrete ties with wood, *July 15
The built-up wood tie joins concrete ties in main-line test on L&N, *Sept 22
- Amercoat Corp.:
Two-component epoxy floor topping, May 36
- Armco Steel Corp.:
Highway overhead replaced by big pipe on N&S, *July 19
- Non-slip catwalks for piggyback workers, *Apr 19
One-piece device for rail spiking and anchoring, *Apr 30
- Baldwin-Lima-Hamilton Corp.:
Hydraulic 20-ton mobile crane, *Mar 48
- Butler Manufacturing Co.:
Easy to erect packaged buildings, *Apr 27
- Canton Stoker Corp.:
Two or four wheels—mobile grouting unit, *Sept 31
- Caterpillar Tractor Co.:
More productive Traxcavator, *Feb 30A
D4D tractor has power shift, *Sept 31
951B Traxcavator, *Dec 38
- Central Engineering Co.:
High-powered vacuum track cleaner, *June 30
- Dependable Parts Co.:
High holding power rag bolt, *June 30
- Difco, Inc.:
Quick-dumping air-dump cars, *Mar 48
- Fairmont Railway Motors, Inc.:
Hy-rail equipment for extra-heavy duty, *Mar 45
Hy-rail bus makes debut in passenger service, *Dec 25
Two new motor-car models, *Mar 43
W-24 Hydraulic weed mower improved, *Oct 28
W-110 Dual spot tamper improved, *Oct 65
- Foster, L. B. Co.:
Higher strength for gauge rods, *Aug 29
Pile driver-extractor, for all piling types, *Nov 32
- Garson Products, Inc.:
Fast setting anchoring cement, July 30
- Good Roads Machinery Corp.:
Track sweeper is king-size vacuum cleaner, *Sept 30
- Gray Co., Inc.:
Airless spray systems apply hot mastics, *April 27
- Henry Manufacturing Co.:
Off-track machine for driving poles, *April 32

Santa Fe uses off-track rig for driving shoulder poles, *Sept 24

Hoffco, Inc.:
Completely unitized Super 510 chain saw, *Mar 51
HD-52 brush cutter, *Aug 29
Super 510 cut-off saw, *Aug 29
Post-hole digger has safety features, *July 30

Hub States Chemical & Equipment Co.:
Fall and winter weed killer, *Jan 44

Hy-Pac Hydraulics, Inc.:
Hy-Pac power pipe bender, *Jan 44

Inland Industrial Products:
Compact Model 100-64 portable blaster, *Dec 29

Jackson Vibrators, Inc.:
On/off-track Model 4000 tamper, *Dec 38

Johnson Rubber Co., The:
Improved design of insulated joint, *May 36

Kalamazoo Manufacturing Co.:
Improvements made to rotary brush cutter, *Oct 28

Royce Kershaw Co., Inc.:
New yard cleaner loads a car per hour on C&E, *Feb 26

LaMere Industries, Inc.:
Fully automatic combustion toilet, *Mar 48

Marcus Jackson Co.:
Three models of rail bender, Aug 29

McColloch Industries:
Concrete fastening Kwik-Bolt anchor bolt, *Apr 32

Midstate Machinery Co.:
Load trains with welded-rail handler, *Nov 32

Multi-Grader, Inc.:
Low-cost shoulder restoration on Santa Fe, *July 28

National Crane Co.:
Hydraulic, telescopic boom crane, *Feb 30A
Telescopic boom on hydraulic crane, *Sept 31

Nordberg Manufacturing Co.:
Speeds renewals with tie handler, *July 30

Orton Crane & Shovel Co.:
New features added to 200-ton wrecker crane, *Apr 32

Plasser American Corp.:
Automated turnout surfacing on Santa Fe with Plasermatic WE-275, *Jan 25
Model 06-32 Doumatic double-head tamper, Oct 65

Power Ballaster Co.:
Improved and modernized, Power Track Ballaster, *Mar 45

Racine Hydraulics & Machinery, Inc.:
New machine pre-sets rail anchors, *Sept 31
Ballast cribber works on both rails, *Oct 28

Railway Maintenance Corp.:
Ballast plow attachment for tamper, *May 36
Ballast regulating attachment for tampers, *Apr 30
Brush cutter attachment for bulldozers, *Mar 45

Combination Spiker-Spacer machine drives spikes, spaces ties, *Apr 27
Convert tractor into rotary snow plow, *Jan 46
Dozer brush cutter, *June 30
Crossing machine has spot tamper, backhoe, *Mar 43
New machine expedites crossing rehabilitation, *Dec 19
Typhoon Snowblower attachment for RMC machines, *Mar 51

Railway Track-work Co.:
Model P-6-L joint grinder, *May 36
New Model P-44 flexible grinder, *Dec 29

Ravonier, Inc.:
Soil stabilizer grouting process, July 30

Ranco Industrial Products Corp.:
Chemical P-247 Flash Deicer, *Jan 45
F-179 Quartex surface hardener, *June 30
P-201 Quadriplex concentrated liquid for plant cleaning, Oct 28
P-250 Piran polyurethane sealer, Apr 32

Reading Body Works, Inc.:
Welded construction utility body, *Apr 32

Remington Arms Co., Inc.:
Model IP lightweight chain saw, *Jan 45
PLV PowerLite concrete vibrator, *Feb 30A
Pow-R-Cut cut-off saw, *July 30
Trak-Mate stud driver, *May 36

Robel & Co.:
Track liner, *Dec 29

Rowco Manufacturing Co.:
Brushing Model 321 makes chain saw a brush-cutter, *Jan 45

Schramm Inc.:
Big compressor paces rail spiking on the PRR, *Mar 29

Schroeder Brothers Corp.:
Model PHT-100 portable hydraulic-circuit tester, *Feb 30A

Securallco Co.:
Light and fast—industrial snowburner, *Aug 29

Schild Bantam Div.:
Getting the most from your on/off-rail crane, *May 21

Soiltest, Inc.:
R-205 soil pressure meter *Apr 30

Sonneborn Building Products, Inc.:
Low maintenance seamless floors, Feb 30A

Southern Wood Preserving Co.:
Built-up wood ties join concrete ties in main-line test on L&N, *Sept 22

Speno Railroad Ballast Cleaning Co., Inc.:
Rail grinding for a short line, *Oct 21

Tamper, Inc.:
Improvements made in DMN hydraulic spike driver, *Mar 50
New plant in South is dedicated, *May 24
Switch Electromatic tamper, a 16-tool machine, *Mar 48
Switch Electromatic tamper does entire turnout, *Oct 28

Turzillo Contracting Co., Lee:
Pier underpinned with inflatable 'Groutainers,' *Feb 22

Western Industries, Western Railroad Supply Co.:
Cast aluminum used in electric switch lamps, *Mar 50

Wheeling Steel Corp.:
"Red Line" of spiral culvert pipe, *Apr 27

Witco Chemical Co. Pioneer Division:
Two-component system protects catenary poles, *June 26

Woolley Machine Co.:
For long welded strings, rail heater, Mar 43
Rail heater adds hours to gang time on IC, *June 24
